MESSAGE FROM THE DIRECTOR:

Since 1963 the Administrative Office of the United States Courts has been publishing detailed statistical analyses of defendants charged with violations of Federal statutes. This is the eleventh report in our Federal Offenders series and it provides data for fiscal year 1973. This report is similar in format to the 1972 report and presents detailed information for nineteen criminal offense categories within each Federal district.

The following pages represent the tip of the statistical-information iceberg in that this report is only one of the end products of a vast data collection system. The system begins with the deputy clerk in each district court who maintains records on defendant processing. This information is supplemented by the clerk in each Federal Probation Office. These records, which number approximately 200,000 annually, are transmitted to the Administrative Office where data analysts code and classify them for computerization. The data is then programmed and formatted into reports such as the Federal Offenders.

This Federal Offenders report was prepared by the Division of Information Systems under the direction of James A. McCafferty, Chief, Statistical Analysis and Reports Branch, and in association with David L. Cook and Elaine M. McVey.

We look forward to your comments concerning this report.

Federal Offenders in the United States District Courts
Fiscal Year 1973

In its September, 1963 report to the Judicial Conference of the United States, the Committee on Judicial Statistics stated that it had considered and approved recommendations concerning changes in statistical reporting made by the Division of Procedural Studies and Statistics (presently the Division of Information Systems) of the Administrative Office of the United States Courts. One of the approved recommendations called for a "separate annual report on criminal offenses processed in the district courts".[1] The Federal Offenders reports were created in response to this recommendation.

This report is the eleventh in the Federal Offenders series. The format of the report is the same as the 1972 report. The detailed statistical data is divided into five appendix tables and reflects data for nineteen offense categories within each of ninety-one federal districts. The territorial courts of the Canal Zone, Guam, and the Virgin Islands have been excluded because their criminal caseloads contain many matters of local rather than federal jurisdiction.

Two other sets of statistical tables are included in this report. The first are the historical offense tables which reflect at least thirteen years of disposition and sentencing data for fourteen selected federal offenses. The second set of tables is comprised of the criminal filing, pending, and termination data published in the appendix tables of the Annual Report of the Director of the Administrative Office of the United States Courts for fiscal years 1972 and 1973. These tables will provide a means of comparison for studies of the criminal caseload in the federal district courts for those years.

CRIMINAL DEFENDANTS DISPOSED OF BY TYPE OF DISPOSITION

FISCAL YEAR 1973

TOTAL: 49,648

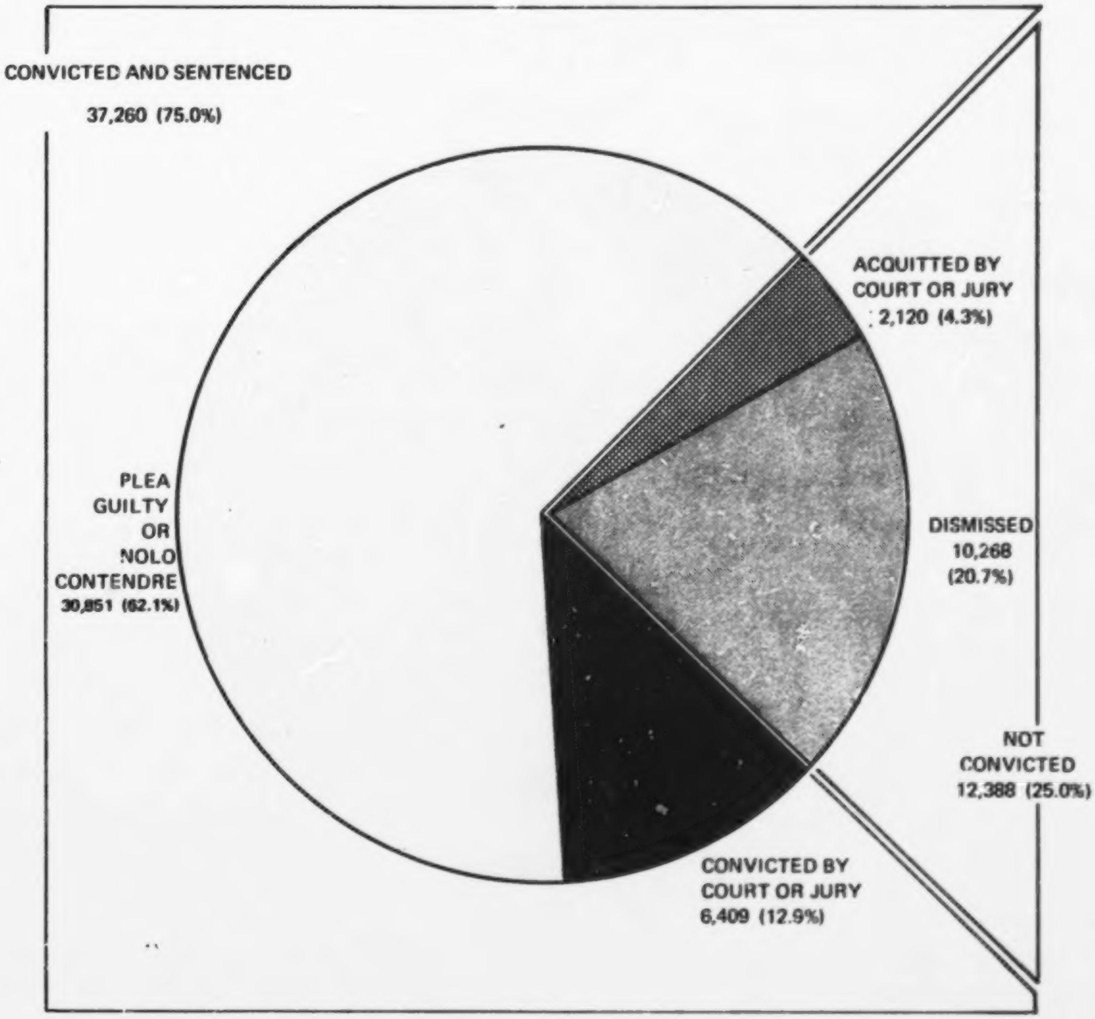

CHART 1

Analysis

During fiscal year 1973, 49,648 criminal defendant cases were disposed of in the United States district courts. Seventy-five percent of the defendants were convicted and sentenced. The majority (83%) of these defendants entered a plea of guilty or nolo contendere. Of the 12,388 defendants who were not convicted, 10,268 had their cases dismissed, while the others were acquitted by court or jury trial. Trial by court resulted in 1,926 convictions, or a 74% conviction rate. Juries convicted 76% of their defendants, for a total of 4,483 criminal convictions. (Table 1)

Of the 49,648 criminal defendants, a total of 23,114 or 46.6% had counsel assigned to them by the court under provisions of the Criminal Justice Act. Private attorneys, whose names are taken from the Criminal Justice Act panel in their districts, were appointed in 17,217 defendant cases, while federal public or community defenders were assigned to represent 5,897 defendants. Table 2 illustrates that of the total number of convicted defendants, 50.4% received court-appointed attorneys. Almost 35% of the defendants whose cases were dismissed were represented by assigned counsel. The acquittal rate for defendants with assigned counsel was 35.8%.

During fiscal year 1973, 15,764 of the 37,256 convicted defendants received a sentence of imprisonment. Twenty percent of these defendants were sentenced to a prison term of more than five years. Defendants sentenced to serve a term of supervised probation numbered 15,471, with the majority to serve between thirteen months and four years. Approximately eight percent of convicted 'defendants were given a split sentence, which is a sentence on a one count indictment of six months or less in a jail-type institution,

followed by a term of probation. There were 1,004 defendants who either received a suspended sentence or who were placed on probation without supervision. Those who were sentenced to pay only a fine accounted for five percent of the defendants and well over one-half of these persons paid less than a $1,000 fine. (Tables 3 and 4)

Table 5 indicates that a likely profile for a federal offender in 1973 would be a male with a prior criminal record who is under 35 years of age. Approximately eighty-nine percent of 1973 offenders were male, ten percent were female, and slightly over one percent were classified as corporations. Of the 26,703 defendants whose age was reported, 15.5% were under age 21 and 31.4% were 35 or older. Prior record statistics were available for almost sixty-nine percent of the 37,256 defendants who were sentenced. Forty percent reported having no prior criminal record, while 60% (15,406 defendants) were reported as having had a prior local, state or federal conviction with a juvenile sentence or a sentence of probation or prison.

The preceding analysis was taken from the summary tables which follow. These tables summarize, by district, the more detailed data contained in the Federal Offenders appendix tables X-1 through X-5.

Appendix tables

The Federal Offenders appendix tables comprise the majority of this report. There are five appendix tables which present data for each of the ninety-one district courts for nineteen criminal offenses within each district.

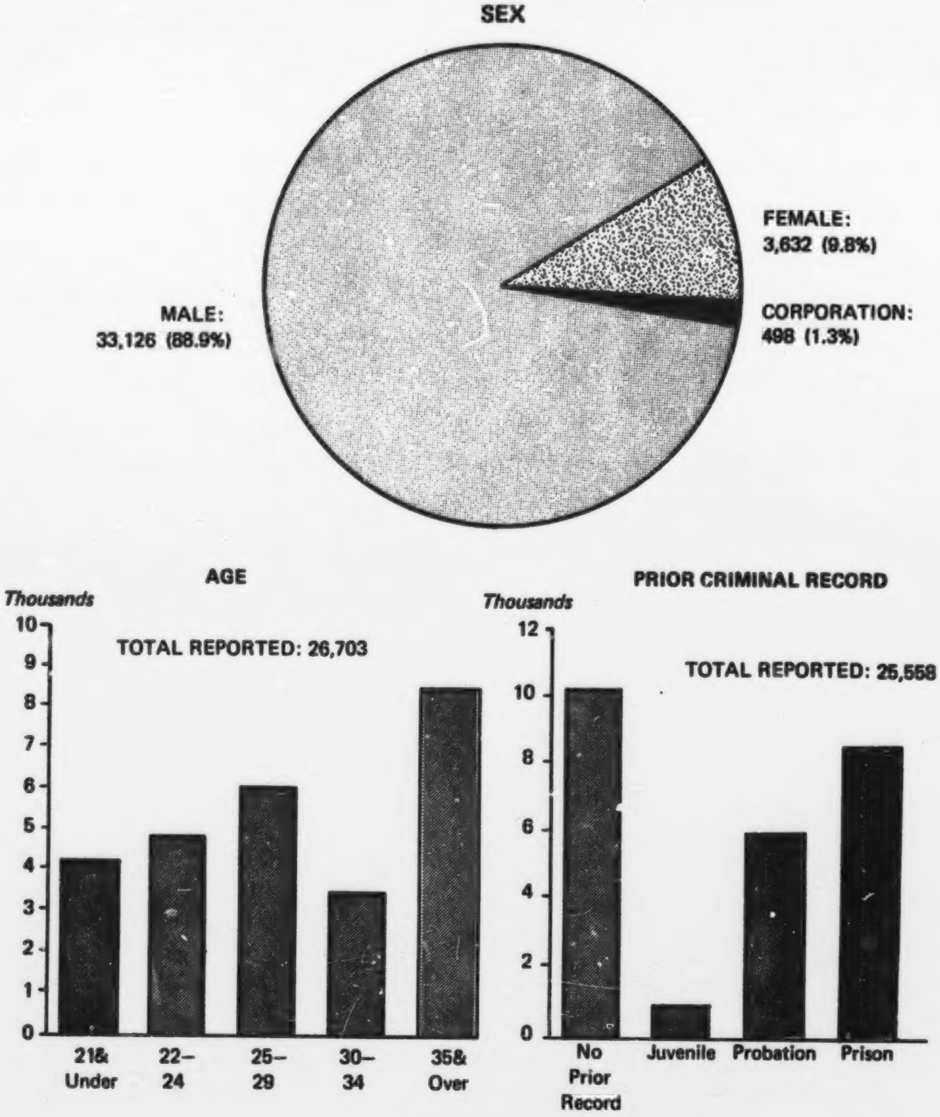

CHART 4

The appendix tables D-1 through D-8 of the Annual Report of the Director for fiscal years 1972 and 1973 have been reprinted in this edition of the Federal Offenders. A comparison of the 1973 Annual Report appendix tables D-4, D-5, and D-7 with the Federal Offenders appendix tables X-1 through X-5 will reveal minor differences in defendant counts in certain districts and in some data categories. The differences are negligible and do not affect the validity of the data.

Historical offense tables

The historical offense tables summarize disposition and sentencing data for fourteen federal offenses. The offenses were selected on the basis of general interest and current trends. Although this is a 1973 report, the historical data have been updated through fiscal year 1975. In all years prior to 1974, the data exclude the District of Columbia and the territorial courts of the Canal Zone, Guam, and the Virgin Islands. Beginning in 1974, the territorial courts are still excluded from the data, but the District of Columbia is included since that court no longer handles local matters.

The following charts illustrate the trend in certain offense data. The offenses selected for illustration are marihuana violations, weapons and firearms offenses, and Selective Service Acts violations. The disposition data and, in one case the sentencing data, for these offenses adapted well to chart presentation and were selected for that reason.

Chart 5 shows that for the last three years the average sentence of imprisonment for marihuana violations has remained fairly stable at approximately 28 months. The highest average sentence in the past sixteen years for marihuana offenses occurred during fiscal year 1961 when marihuana violators were sentenced to an average prison term of nearly six years. However, the average prison sentence should be viewed in conjunction with the actual number of imprisoned defendants. Statistics show that in 1961 there were 252 defendants imprisoned for marihuana violations, while in 1975 there were 1,536 defendants, an increase of 509.5%.

The conviction rate for persons charged with violations of the Selective Service Acts is depicted in Chart 6. Generally, the conviction rate was at its highest during the five-year period 1960 to 1964 when between seventy and eighty percent of Selective Service defendants were convicted. In contrast, during the five-year period 1971 to 1975, the conviction rate fluctuated between seventeen and thirty-eight percent. This was the lowest conviction rate experienced in any five-year period shown on the chart.

Chart 7 illustrates the disposition of defendants charged with weapons and firearms violations during the last eleven years. The total number of defendants whose cases were disposed of during fiscal year 1975 reached a high of 3,291, an increase of 128.3% over 1965. The 1975 conviction rate of violations of federal weapons and firearms statutes was 79.0% compared to a 1965 conviction rate of 75.2%.

[1] Included in this column are 19 defendants who were committed pursuant to title 28 U.S.C. 2902, of the Narcotic Addict Rehabilitation Act of 1966.

[2] Removed under provisions of the Civil Rights Act, 28 U.S.C. 1443. The 115 defendants, whose cases are shown as dismissed, were cases remanded to state courts.

NOTE.—Unlike tables D1, D2, and D3 which refer to criminal cases, tables D4, D5, D6, and D7 reflect individual defendants disposed of during the fiscal year in a given district court. In those situations where the defendant is disposed of in two or more criminal cases, e.g., by conviction and sentence on 1 indictment and by dismissal on another indictment, only the conviction and sentence (or combination of sentences where such are imposed following conviction on separate indictments) is recorded. This procedure has the effect of the procedure commonly used where in a single indictment separate charges are disposed of by conviction in 1 or more charges (counts) and other charges (counts) are dismissed.

[4] The Middle District of Louisiana was created by Public Law 92-208, approved Dec. 18, 1971, and effective Apr. 16, 1972. Data is presented for this new district for the entire fiscal year.

[5] Excludes districts where number imprisoned was 25 or less.

[6] The high average sentence in the District of Columbia reflects the use of the maximum term of indeterminate sentences imposed on defendants convicted of violations of the District of Columbia Criminal Code.

[1] Removed under provisions of the Civil Rights Act, 28 U.S.C. 1443. The 76 defendants whose cases are shown as dismissed, were cases remanded to State courts.

[2] Included in this column are 45 defendants who were committed pursuant to Title 28 U.S.C. 2902, of the Narcotic Addict Rehabilitation Act of 1966.

NOTE.—Unlike tables D-1, D-2, and D-3 which refer to criminal cases, tables D-4, D-6, and D-7 reflect individual defendants disposed of during the fiscal year in a given district court. In those situations where the defendant is disposed of in 2 or more criminal cases: e.g., by conviction and sentence on 1 indictment and by dismissal on another indictment, only the conviction and sentence (or combination of sentences where such are imposed following conviction on separate indictments) is recorded. This procedure has the effect of the procedure commonly used where in a single indictment separate charges are disposed of by conviction in 1 or more charges (counts) and other charges (counts) are dismissed.
